How to check Mac disk speed One way we used to check how fast the storage inside our Mac was used to be to copy and paste a 4GB folder and then time how long it took to duplicate.. Here is a minor update of the OSX version of GpuTest I added some command line parameters for those who use GpuTest without the GUI and I updated a bit the user interface (GUI).. Otherwise just set the permission +x to GpuTest\_GUI app and to GpuTest\_GUI app/Contents/Resources/gputest.
